

Page 1 - Modern PDF Compression Test

Demonstrating Object Streams + XRef Streams

Paragraph 1: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 2: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 3: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 4: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 5: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 6: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 7: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 8: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 9: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 10: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 11: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 12: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 13: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 14: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 15: Object streams compress multiple objects together, reducing file size significantly.

Demonstrating Object Streams + XRef Streams

Paragraph 1: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 2: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 3: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 4: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 5: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 6: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 7: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 8: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 9: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 10: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 11: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 12: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 13: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 14: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 15: Object streams compress multiple objects together, reducing file size significantly.

Page 3 - Modern PDF Compression Test

Demonstrating Object Streams + XRef Streams

Paragraph 1: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 2: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 3: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 4: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 5: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 6: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 7: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 8: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 9: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 10: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 11: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 12: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 13: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 14: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 15: Object streams compress multiple objects together, reducing file size significantly.

Page 4 - Modern PDF Compression Test

Demonstrating Object Streams + XRef Streams

Paragraph 1: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 2: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 3: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 4: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 5: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 6: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 7: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 8: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 9: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 10: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 11: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 12: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 13: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 14: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 15: Object streams compress multiple objects together, reducing file size significantly.

Page 5 - Modern PDF Compression Test

Demonstrating Object Streams + XRef Streams

Paragraph 1: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 2: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 3: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 4: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 5: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 6: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 7: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 8: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 9: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 10: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 11: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 12: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 13: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 14: Object streams compress multiple objects together, reducing file size significantly.

Paragraph 15: Object streams compress multiple objects together, reducing file size significantly.
